

November 5, 2019 General Election Post-Election Audit Workbook and Certification Form

Post-Election Audit Instructions

1. Each board of elections must conduct a post-election audit of the November 5, 2019 General Election. Instructions for conducting the post-election audit are found in the Election Official Manual, Chapter 9, Section 1.03.
2. This workbook should be completed by each board **during the post-election audit** as it is designed to aid the board in determining how many units must be selected for the audit.
3. This form must **immediately be submitted** following the post-election audit.
4. The audit must include all types of cast and counted ballots, including Election Day, absentee, and provisional ballots, unless the unit type selected for the audit is voting machines.

Workbook Completion Instructions

1. Begin at the top of the form at Step 1 and move down.
2. The form will perform calculations to aid the board in determining the number of units that need to be audited. Once the board has chosen at least two auditing units and also selected enough units to equal 5% of the total ballots cast, the fields for the unit name and the total number of votes will **stop generating**.
3. Review the tips provided, which will appear by hovering the mouse pointer or cursor over a field.
4. When asked to provide an explanation of any discrepancies, the board must provide a detailed description of the issue.
5. Boards who fail to provide a detailed description of any reported discrepancies in the units audited will be required to submit the form again.

Basic Information

Step 1: Provide the information as required below.

1. Choose your county board of elections from the drop down list.	Allen
2. Input the total number of ballots cast in the contest to be audited in the November 5, 2019 General Election. This number must include all Election Day, absentee, and provisional Ballots cast and counted.	12,496
3. Choose the unit type (polling location, precinct or voting machine) to be audited from the drop down list.	Precinct
4. Select the date of the post-election audit using the calendar drop-down (see selection arrow to the right).	December 10, 2019
5. Enter the total time spent on audit (including preparation) expressed in hours and minutes as a decimal (e.g., 2 hour and 30 minutes would be 2.5).	3
6. Enter the cost of audit supplies.	\$0.00
7. Enter the wages/salaries paid to staff needed for the audit. Do not include the regular pay associated with full-time staff.	\$0.00
8. Total cost of the post-election audit.	\$0.00
9. Input the contest chosen by the board to be audited.	
Allen County Children Services Center	

Unit Information

Step 2: Enter the **name** of and the **total number of votes cast and counted** for each unit audited.

1. If the unit type audited is a polling location or precinct, the board **must** include the total number of ballots cast and counted including Election Day, absentee, and provisional ballots **cast and counted (do not include absentee and provisional ballots cast but uncounted)**.
2. Each board **must** select at least **two** units (polling locations, precincts, or voting machines) to audit, even if the initial unit selected is equal to or over 5% of the total ballots cast and counted.
3. The board must continue to select units until the total number of ballots cast is equal to or greater than 5% of the total ballots cast and counted in the election. A row will automatically generate if the board has not reached 5%.

Audit Questions

Step 3: For the units being audited above, answer the following questions. If "NO" is the response to any of the questions, the board must provide an explanation for the discrepancy in the space provided providing details about the affected units.

1. Were the optical scan ballots properly sealed after transport from the polling locations?	☒ YES ☐ NO
--	---

Provide a reason for responding "NO" to Question 1. Be specific and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

--

2. Were the Voter Verified Paper Audit Trail (VVPAT) canisters properly sealed?

☒ YES ☐ NO

(If the county does not use DRE equipment indicate "YES")

Provide a reason for responding **"NO" to Question 2**. *Be specific* and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

3. Did the serial number(s) on the security seal(s) match the serial number on the security seal(s) as recorded on Election Night?

☒ YES ☐ NO

Provide a reason for responding **"NO" to Question 3**. *Be specific* and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

4. Did the ballot reconciliation charts balance?

☒ YES ☐ NO

Provide a reason for responding **"NO" to Question 4**. *Be specific* and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

5. Was the zero report located and did it contain only zeros?

☒ YES ☐ NO

Provide a reason for responding **"NO" to Question 5**. *Be specific* and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

6. Was the ballot chain of custody form properly completed?

☒ YES ☐ NO

Provide a reason for responding **"NO" to Question 6**. *Be specific* and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

7. Did the number of ballots cast on Election Day equal the number of voters as recorded in the signature pollbook (or electronic pollbook)?

☒ YES ☐ NO

Provide a reason for responding **"NO" to Question 7**. *Be specific* and include details on the **units** and **types of ballots** affected and any information determined to be relevant to describe properly the discrepancy.

Ballot, Race and Contest Details

Step 4: For the contests below, please include the **TOTAL** number of ballots cast for **ALL** audited units. For example, if the unit type audited is "precinct" and precincts 2, 4, and 8 were randomly selected and meet the 5% requirement for the county, sum the total ballots cast of each precinct and use that total (e.g., Precinct 2 had 300, Precinct 4 had 500, Precinct 8 had 900, the total number would be 1,700 ballots cast).

1. If a discrepancy exists, the board must clearly identify the discrepancy and provide an explanation that provides information as to (a) the specific unit(s) affected, (b) the type of ballots affected, and (c) the reason for the difference.
2. If a difference exists for a particular candidate or response, the audit field will turn yellow to indicate the difference.
3. If a difference exists the board must provide a reason for the discrepancy. **Note: The workbook is designed so that the absolute value of each discrepancy is calculated in the Accuracy Rate. Therefore, even if the Total Ballots Cast corresponding to the official and audit totals are equal, a discrepancy may still exist if the totals for the candidates offset one another.**
4. The board must escalate the audit if the Accuracy Rate is less than 99.5% and the margin of victory is greater than 1%.
5. The board must escalate the audit if the Accuracy Rate is less than 99.8% and the margin of victory is less than 1%. Please refer to the Election Official Manual for assistance with escalation.

Instructions

For the units being audited, include the cumulative total for each candidate, including a **cumulative total** for all ballots with a write-in candidate selection, as well as the number of ballots with an over or under vote for that contest. This total, when auditing **by precinct and polling location**, should include all ballots cast (including Election Day, counted absentee, and counted provisional ballots).

As an example, if the first unit being audited had **200** ballots cast for a given presidential candidate and the second unit had **300** votes for that same candidate, then the cumulative total is **500**.

Step 5: Instructions before Submitting

1. After completing the required fields, complete the "Almost Done!" section.
2. Save the form.
3. Submit the form by selecting the "Submit" button below. Follow the prompts to print and re-save the form with a different file name (e.g., [County] Post-Election Audit Final 11-5-19).
4. If the board is required to escalate the audit because the accuracy rate was less than 99.8% or less than 99.5%, respectively, completes steps 2-4 above and resubmit the form as an amendment.
5. When asked to provide a reason for the amendment, report the reason for the amendment as "escalation required."
6. Print and complete Step 6 and email a scanned copy to Results@OhioSoS.gov.

Step 6: Certification

By signing below, we hereby certify the results of the audit as detailed above.
